BROWNING. KING & CO.

Truth needs no color, with his color fix'd; But best is best, if never intermix'd. —SHAKSPEARE.

WHENEVER a clothier puts sham clothing on his tables beside RELIABLE garments, the former detracts from the value of the latter, and his whole stock is discredited thereby. No first-class diamond merchant ever places "paste" beside his genuine gems, and why should the clothier have good goods and rubbish side by side? Why, indeed!

'Tis a thing impossible, to get a discriminating public to believe that ANY of a merchant's stock is reliable if bogus goods be also handled by him. And how he can for one moment imagine that customers will ever have confidence in him if he does so, is - as Lord Dundreary used to say-"o-one of t-those t-things n-no f-fellah c-c-can underhtand."

Now we never do this. Look at our immense collection of WINTER CLOTHING, for example, our Overcoats, our Men's Suits, our Boys' and CHIL-DREN'S SUITS. The whole stock's as free from poor

And yet we're not obliged to ask fancy prices in order to keep up our standard of reliability. The magnitude of our manufacturing-retailing business obviates any necessity for that.

Always remember these things: (1) Big profits are made on spurious goods.
(2) The less wool you buy the more profit you pay. (3) Whatever you get from Browning, King & Co., will be absolutely reliable; every-

Against the Bishop of Lincoln,

LONDON, Nov. 21 .- The Archbishop of Canrbury has delivered judgment against Rev. Edward King, Bishop of Lincoln, who was charged with ritualistic practice regard-ing the jurisdiction of the ecclesiastical court and his obligation to obey the rubrical doc-trines in the prayer book. The archbishop uspended judgment in regard to the Bishop's ubrical irregularities. The mixing of water with the wine used in the act of consecration, the Archbishop holds, infringed the law of the Church, but the use of a mixed chalice prepared beforehand did not offend the ecclesiastical law. The charge against the Bisnop regarding absolution was dis missed, it not being supported by the evidence. The Archbishop decided that Dr. King's action in furning his face to the East manual acts invisible, was illegal. The acts must be visible to the congregation. Estimate Too Low - What Chairman Cannon of the House Committee on Ap propriations Has to Say-No Probability of Tariff Logislation During the Coming Year-Atterney-General Miller and the Supreme Court Judgeship-Rulings on Importations-Washington News.

WASHINGTON, D. C., Nov. 21 .- Congressman committee on Appropriations, arrived in that he apprehended, in a general way, that when the adjudications under the new pen-sion law were made the pension roll would reach \$150,000,000 a year. He estimated the cost of the new law at \$50,000,00, a year. Mr. Cannon said he had no doubt that the reve nues of the Government under the new tariff law would be sufficient to meet all the ordinary expenses of the Government and pay

\$150,000,000 a year for pensions.
''I include also the sinking fund.'' added
Mr. Cannon, ''but we have anticipated the sinking fund by \$800,000,000, and we are so far ahead that if we don't pay a cent under the sinking fund account for the next ten or twelve years we will have just caught up." Mr. Cannon thinks that beyond allowing a possible rebate on tobacco there will be no tariff legislation during the coming session

A BIG DEFICIENCY. NEW YORK, Nov. 21 .- The Herald's Washington correspondent says: "It now appears that even Commissioner Raum's estimate of the deficiency in the pension account this year is too low, and from information just re-ceived it is likely that the deficiency will reach \$49,000,000. This means \$150,000,000, instead of \$135,000,000, this year for pensions. It means more than \$200,000,000 next year for ensions. It means a bankrupt treasury and an impaired national credit even sooner than Congress must come at once to the relief of the overburdened government and either repeal some of these unnecessary pension laws or provide additional taxation for their payment. If the pension office works up to the full limit of the capacity of its present force in settling pension cases and issues certificates as rapidly as the cases are settled the pension deficiency this year will amount to 375,000,000 instead of \$40,000,000. At the amailest calculation this increased capacity will amount to an increase of \$5,000,000 er \$10,000.000.000 over the Commissioner's estimate. That will make the pension expenditures \$100,000,000 for the year. How will Secretary Windom be able to avoid admitting in his forthcoming report that the end of the present fiscal year will see the Government wishout a penny to pay current expenses with. Congress must come at once to the relief of the

Dancing Themselves Into a Frenzy. PINE RIDGE AGENCY, S. D., Nov. 21.-At a late hour Wednesday night it was learned at the Wounded Knee reservation continued the dances since they learned of the arrival of the socidiers, but those at White Clay and Medicine are also in it and are dancing themselves into a frenzy. All these districts are close at hand. Agent Rover computes the number of actual sale-bodied men who are prepared to fight and who are thoroughly armed at 600. The squaws, who are by no means a trivial factor is the fight, of course, stretch that number away out. As yet no orders have been given to reinforce the hundred men now in camp here, but if it becomes necessary there are more than a dozen companies under matching orders. The information from the Rosebud Agency is contradictory and is based entirely upon rumors, one of which is to the effect that Jack Red Cloud seat a waring to the Niobrara garrison to keep out of this trouble, as it was a battle for religion. The indians are moisting no-body as yet, and do not object to having the for religion. The indians are moisting no-body as yet, and do not object to having the few whites who have this bellef to witness their dance. In fact, they put in extra kicks at such times for the evident purpose of convincing them that they are in earnest. There is not a man in the 'agency who knows anything about Indian character who does not predict trouble. The opperatualities are better than for years, as the religious nature of the revolt, for revolt in as become, is such that the traders, and especially Agents Cooper and Royer, say it is almost certain to result in a hot campaign. The average strength of the Indians' ammunition is 200 to 200 rounds to each man. If the Indians choose they might easily make a desear, the people here claim, and destroy the telephone communications.

THERATERING AND BOISTEROUS.

THE wives and children of all the traders and other whites about the agency have left for the assers points along the railroad and the men here are prepared for the worst. DEFAULT DAY.

MANY STORIES OF MARITAL MISERY TOLD TO-DAY UNDER THE DOMF.

ohn R. Bryant, the Man Who Abducted

Judge Fisher in Division No. 2 of the Circuit Court to-day spent some unhappy hours listening to stories of married misery. It was default day in his court and applicants for partners have gone quite away from them, or within reach are also anxious for a separation, have no opposition, were there to claim decrees dissolving hated ties. The tales of woe they told were of various sorts. Some were desertions. Those were breathing piaces for the Judge. Some were hideously full of uneavory detail. There are outlines of these

for the Judge. Some were hideously full of unsavory detail. There are outlines of these tales below.

John R. Bryant petitioned for a divorce from Mamie Bryant. They were married July 1, 7883, and lived together until the middle of August, 1889. He charged that his wife had a daughter, Nellie, by a former marriage, that this daughter, "who claims to be a widow and passes as the sister instead of the daughter of the defendant, made her home at the residence of the plaintiff and conducted herself in so soandslous and shameless a manner that the plaintiff ordered her away from the premises." That was on May 1, 1889. Mirs. Bryant especied her daughter's cause and went away with her, informing Mr. Bryant that if he wished to communicate with ner her address was \$t. Louis Post-office. She returned on May 3 and remained one night. After that she remained part of the time with him and part of the time with him and part of the time with her daughter on Argyle avenue. He called on her at the Argyle avenue hou e to induce her to return home with him, and claims that while he was talking at the front door a man escaped from the back door. Mrs. Bryant returned to him for a short time and one day he returning home unexpectedly says he found her sitting in the lap of the strange man. The man he says again escaped by the back door. He gave chase but failed to catch him.

There were no children born to them but on July 12, 1884, they adopted an infant to whom they gave the name Revy Bryant. He is now six years old. He asked for a divorce and the custody of this bey. The lad was left by Mrs. Bryant at the Messiah Mission on Ninth and Wash streets to be cared for last winter. He became ill and was sent to the St. Louis Children's Hospital on Adams and Jefferson avenue. One night Bryant and his attorney went to the hospital and while the attorney went to the hospital and while the attorney went to the hospital and while the attorney engaged the marron in eonversation Bryant ran off with the boy. There was a row raised, but Bryant

Wm. E. Gordon applied for a divorce from Sophia A. Gordon. They were married July 30, 1888, and on the first anniversary of their wedding Sophia avoided well. wishers and deserted. She has since remained away.

Clara Price, who complained of her husband, Henry Price, said they were married in Blocunington, Ili., Nov. 1, 1888, and Henry abandoned her in St. Louis in April, 1889. She charged that he beat her, refused to support her, accused her of frequenting improper places, often threatened to kill her, and that he was unfaithful to her. There were born to them eight children, five being still minors, the youngest being 3 years old. She asked for divorce and alimony.

Ella M. Crotzer sued Charles A. Crotzer to whem she was married in Louisville, Kv., Nov. 3, 1883, and from whom she separated Jan. 4, 1886. She charged Charles with preferring "a woman named Allen" to his lawful with other offenses such as striking her, etc.

That he thought better times were at hand for Wall street. Mr. Gould has been credited with large purchases of stock during the past few days. "The financial situation is improving," said Mr. Gould. "Money that has been hidden away in old stockings is being brough out to take advantage of the bargains in stock. Out to take advantage of the bargains in stock. The effect of these purchases must soon be felt. Not only is meney brought into Wall street by them, but stocks are at the same time taken out of the street. Confidence is being restored and holders of securities are beginning to see that it is fooligh to sacrifice them at the existing prices."

fall in values?"
"The financial world revolves a good deal as does the earth itself. Similar events happen about once in so often. Every eight or ven years there is a period of financial depression. It is something that must be looked for the disturb sion. It is something that must be looked for and that cannot be prevented. The disturbances which we have gone through show to the world that these people of the United States are strong financially. They have taken from European holders \$100,000,000 of American securities. The foreigners sold American securities because they could not soil argentines and other unsubstantial securities which they held. The experience which they have had demonstrates to the moneyed men of Europe that American securities are the best to own. We may expect heavy buying orders from them when the time comes."

CAUSE OF THE STRINGENCY.

"To what do you attribute the stringency in money?"

"To what do you attribute the stringency in meney?"

"It takes money to de business. There is great business prosperity throughout the Southwest, West and Northwest, necessitating the use of large sums. In addition, the cetton crop is immense and there is a good wheat crop. Much money is required to move these crops. High rates for money prevail in Europe, and the effect is naturally felt here. Money ought to get easier. The sliver purchases is holding out \$5,000,000 a month, which is equal to \$20,000,000 for purposes of circulation. Northern Pacific stock to give them control of the property?"

"I understand they have acquired a large amount of Northern Pacific, and will have the controlling voice in the affairs of the road. When such men as these invest their money in a railroad it is a great guerantes to other investors. It means that they are going to look personally after the management. The intense of their purchases of Northern Pacific will extend throughout the market. When blocks have advanced all along the line from to 10 per cent people probably will be able to see better than they de now, and the number of purchases will be multiplied."

EARLY-PRIODS.

The advance over last night's figures were raily from is to in per cent, Sugar Re-

fineries was and Louisville & Nashville I percent. The only marked feature developed in the carry trading was a renewal of the weakness in fock Island which was so pronounced yesterday and while it opened up to present the percent with the remainder of the list at 64th it was quickly retired to 61th on large dealings. The general list sympathized to a very limited extent in the deoline, most stocks in yielding only small fractions from first prices but when the downward movement in Rock Island came to an end the natural tendency of the market to rise was shown and material gains were scored all along the line. Missouri Pacific and Northers Pacific preferred at 62th, was up 1th and Norther Pacific preferred at 6 was 1th higher but the improvement in the others was confined to tractions. Rock Island railled to 63th.

The Chicago Telemanaya report was given.

confined to fractions. Book Island railled to 634.

The Chicago Tribune says a report was siron-lated on the Stock Exchange in New York yesterday for the evident purpose of depressing the company's securities that the Rock Island directors had determined to pass the next dividend. The Tribune can state upon the highest authority that no such action had been taken or even discussed, and that there is no possibility of the company's inability to continue the payment of regular dividends herea tor. The last dividend is now being paid and the next will not be declared until February.

A GENERAL ADVANCE.

At noon money was easy at 5 per cent. In the steck market after 11 o'clock there was little movement of importance and while the tone remained firm to strong no material improvement in prices was made except in Burlington, which rose to 88 against 86 last evening. Every thing scored gains, however, and among the apecialties some sharp advances were made. Jersey Central sold at 100 against 97 last evening, and Sugar Refineries on very light trading rose from 52% to 55%. There was less animation later in the hour, and the upward movement hatted somewhat, but at noon the market was active and strong at about the highest prices of the morning. A GENERAL ADVANCE.

somewhat, but at moon the market was active and strong at about the highest prices of the morning.

London bought some stocks this morning and the early prices there were generally higher than our closing of yesterday, and this, together with faverable advices regarding the financial situation in London, made a strong opening here, first prices having been 4 to 2 per cent higher, with an exceptional advance of 9 mr cent on Pullman. The most conspicuous features of the forencon, however, were the activity and advance in Northern Facific preferred, which was 2% to 6%. After this also came Missouri Pacific, Union Pacific, Western Union, Lackawanna and Louisville; Rock Island was again made as special target for heavy short sales by the bears, though there was no further explanation of the cause than there was pesterday. So far as the condition and earnings of the road are concerned there are assurances from trustworthy authority that the property was never in better physical condition and that the earnings are such as to leave no reasonable doubt about the payment of the next regular quarterly dividend in February. Aside from Rock Island the stock market was very strong and was made more so by the announcement about 11:30 that the Southern Pacific, Sauts Fe and Union Pacific railroads and others of the transcontinental roads have signed an agree ment to maintain rates, pay no rebates and refuse to exchange traffic with roads east of the Missouri River found to be manipulating rates.

Barker Bros. was one of the most prominent private banking-houses in Philadelphia, and their failure will directly involve some large interests. The stock of one local company there dropped from 95 to 60. It looks as if the house had existed on Barings' credit, like many more throughout the world. The result will be a very great reduction of credit and a consequent advance in the rates for money everywhere. One result of the savings bank's depositors' withdrawal of money will be the withdrawing of all money from real estate and a collapse of the speculation in and around this city. Nearly all this money has come from savings banks and insurance companies.

Intelligent brokers, who have hitherto opposed the proposed plan for clearing stocks, thinking that they would thus be compelled to show up the sperations of their oustomers, are now coming to the conclusion that they did not fully understand the plan and are in favor of it. The transaction can better be kept private under the clearing home proposition than by the presant plan. It was known up town last evening that the Barker Bros. 'failure was larger than first reported, and it was cabled to London that the liabilities would exceed \$6,000,000. Some of the brokers thought this would have a bad effect on American stocks, in London today, but Von Hoffman's people here report a better feeling in the London market, and an advance in American securities has begun.

The price of consols was higher and Americans all strong at a considerable advance; this, of course, helped to strengthen our market. The only weak spot has been Rock Island, which, under liberal selling broke from 64% to 64%, the lowest price it has reached. It has however, since reached to the opening price. There have been no disturbing rumors current to-day of financial troubles, and the feeling is that the worst is over and that the price hereafter will not be subject to such sharp declines. Many attributed the stadiness to the position which Mr. Gonid has

We are highly gratified at the phenomenal success we are meeting with in introducing the EOLIAN. This is not surprising, however, as the instrument has so many merits that a lover of good music can not fail to recognize. While the ÆOLIAN is somewhat new in St. Louis, it has already met with a large sale in the principal cities, and when we accepted the agency, we were confident it would soon become popular here. Our wareroooms are thronged daily with musical people to see this wonderful instrument, and the highest praise is heard on every side. Musicians are the most enthusiastic of all, in fact, are bewildered by the astonishing results which can be produced with two or three weeks' practice. The Barker Failure.

PHILADELPHIA, Pa., Nov. 21.—The doors of Barker Bros. & Co.'s banking-house were opened again this morning and affairs in and opened again this morning and affairs in and around the bank resumed something of their wonted appearance, though no business was being transacted. It was impossible to see either member of the firm, as they were busy straightening out their tangled business, but one of the employes stated that no statement of the firm's situation would be made this morning, although it was possible that one would be made later in the day. The fund of \$800,000 subscribed yesterday by a number of banks and private banking houses to aid the Finance Co. of Pennsylvania if the occasion for it arose to meet its outstanding liabilities has not yet been drawn upon by the company, it being fully able to meet its liabilities. Mr. Wharton Barker was vice-president of this company and it was feared his connection therewith might cause a run upon its financial affairs. The lavestment Co. of Philadelphia, of which Mr. Wharton Barker was one of the directors, claims to be perfectly solvent and unaffected by the failure of Barker Bros. Wednesday afternoon Mrs. Dallas went down town and on her return found the girl very sick. She was put to bed and visited by two doctors who live in the house and to whom she confessed that she had taken poison to ead her life. Dr. Rutledge was called in later and administered anti-dotes so successfully that she was recovering and last night got up and dressed for a party given in the neighborhood. Yesterday afternoon Principal Lott had occasion to chastise Pettis for committing some little misdemeanor in his class. The chastising however was too severe. The principal used a leather strap on the boy's back and face. The jaw bone is injured and twe teeth are knocked out. The boy's back is in a horrible condition. The marks of the strap are plainly visible. Dr. Thos. L. Reber was called to Pettis' house yesterday and dressed the boy's injuries. Huge red and black and blue marks overed his back and shoulders. It was to avenge the wrong done the boy that a warrant was sworn out against lott. The case will be tried before Police Jutice Meegan to-morrow moraing. The horse of one of the robbers got away, but was captured after a hot chase, one of the citizens being forced to assist in the capture, and the robbers then rode out of tews with revolvers drawn and pointed at the crowd which had been attracted by the commotion.

After this several train and stage robberies followed within the next two or three years, in which the James gang had a hand, but it is not certain that Dick Little was present at any of them. The Hot Springs stage was robbed near Malvern, Ark., in January, 1874, and several thousand dollars obtained, and an Iron Mountain traih was robbed in Wayne County, Mo., about the same time, as also a train on the Chicago & Reek Island near Council Bluffs. Then came the Muncie, Kan., train robbery, Oct. 18, 74, Otterville train robbery in Nebraska in Sept., 77 both of which were charged to the James' gang.

Pacific train robbery in Nebraska in Sept., '77 both of which were charged to the James' gang.

REORGANIZATION OF THE BAND.

Dick Little was left behind when the boys went to Northfield, Minn., but was present at the reorganization, when Charley and Bob Ford and Jim Cummings were taxen into the band. A feeling of enmity soon sprang up, however, between the James boys and the new members, the latter becoming jealous of the old leaders and wanting to do a little robbing on their own hook, just to prove to Frank and Jesse that a good job could be planned and executed without their assistance. Dick Liddel Joined the Fords and Jim Cummings in their plans and three train robberies within two years was the result, namely, at Winston, Daviess County, Mo., and the Glendele and Blue Cut train robberies on the C. & A. road near Kansas City. Jesse and Frank James were accused of being the leaders in all the robberies, but their friends deny that they were present at either of them, and that Little, Cummings and the Fords were in all of them is well known.

THE WINSTON ROBBERY.

Seven men in all took part in the Winston robbery, having got on at the next station. Three made in the smoking-car, two on the rear platform and two on the front platform of the same car from which they could olimb onto the tender of the locomotive when the time for action cama. The train was held up when it stepped at Winston, and Conductor westfall and a passenger samed McCuillough were shot and killed and Express Messenger Murray was hit in the head with a revolver and compelled to open the safe for the robers. They got away with semething like tip,000.

Dick Little was one of the leaders in this robbery, as also in the Glendale train robbory, his comrades here being Pitts. Cummings, the two Fonts, Chadwell, Hobbs Kerry and Ed Miller. They broke open the express car with a sledge hammer and got about \$30,000. About two years later, namely, Sept. 17, 1881, another train was held up only two miles from Glendale, namely, at a point in the road called Bine Dut.

BLUE GUT TRAIN ROBBERY.

Ties had been placed across the track and a red lantern set on the obstruction. The engineer saw the light and stopped she train, and the robbert them went through the cars and robbed the passetgers, and they also robbed the express car. Several shots were fired, but nobody was hurt. The robbers permitted the conductor to send a min out to flag a freight behind them, and the flagman was just in

time, as the freight was almost on them before it could be stopped.

This robbery was planned and executed without the assistance of the James boys, and the robbers even refused to 'divy' with them, and the result was an open rupture between Dick Little and the leaders of the gang. In less advanced cases the patient will have to undergo a long course of treatment, and repeated fresh injections.

Doctors agree in attributing to Koch's remedy the greatest value for diagnostic purposes and in cases of tuberculosis of the skin, but as to the lungs and internal ergans there is general and grave doubt. tial diagnostic. An Italian doctor says tha

PARTY MACHINES IN CITY AFFAIRS.

A party machine of any denomination is out of place in municipal contests, because it is run with reference to issues that have no bearing whatever on municipal legislation or administration. When the voters overlook the questions apper taining to city government, and support a city ticket because of their preference for this or that national party, they simply say that they want a certain party to have the city offices and to control the city government, without any distinct idea or pledge as to what its municipal New York Bureau, Room 20, Tribune Building, Max H. Fisher, Manager. policy will be. They subordinate city affairs to national affairs in a contest which has nothing to do with nationa affairs and everything to do with city

affairs. This diversion of the people's attention to irrelevant questions enables the ringmasters of both parties, who are thinking more about the sacking of cities than the promotion of national policies, to arrange their spoils machines and mature their schemes of plunder under cover. A party machine in city contests is, therefore, at its worst, only a convenient blind for rings of spoilsmen. At its best, it may, and sometimes does, give us good men in. city offices. But when the people themselves subordinate city interests to party interests in choosing municipal officers, the men they choose are apt to do the same thing in office, and to imagine that they were elected to do it.

In this city, however, the old habit of elying on party committees and permiting them to limit the choice of the people to two machine tickets with the forged popular indorsement of counterfeited primaries, has received a shock from which it will not soon recover. Both parties will have to reconstruct their nominating machinery or withdraw it from municipal elections. At its best it is out of place there. At its worst, as we have seen it in the late election, the people of both parties will resent its intrusion in next spring's contest.

London, Nov. 21.—The feeling among the English Liberals on the subject of the O'Shea revelations continues to grow. M. Rickards, M. Rickards said the Liberal party represents the working people and the so-called middle classes, among whom the purity of home life is held in high esteem. "We have neither the time nor the incilination," said he, "for debauchery, and we want our leaders to be men that we can take by the hand. When Joseph Biggar died, leaving a good deal of property to an illegitimate son and the son's mother, we were a good deal surprised and shocked, but this case is far worse. New York, Nov. 21. - Six members of a local branch of the Irish Land League have united in issuing an address criticising the methods and motives of Messrs. Dillon and O'Brien that will attract wide attention among the friends of Ireland. It goes so far as to charge that they fear to have an Irish Land League here to which they would have to account for money subscribed by Irish-Americans and that they have endeavored to stop the raising of money to prepare for the impending famine in Ireland for fear that it would interfer with their own purposes. The address fol-

this country to collect money to avert a threatened famine in Ireland, and their appeal was generously responded to. During their stay here the American wing of the Land League was founded. From 1880 to 1886 an-Lague was founded. From 1890 to 1896 annual conventions of the Laud League were held at which delegations from the Irish Parliamentary party attended, and to which Mr. Parnell sent cablegrams of recognition, counsel and good wisnes. The officers selected by such conventions became the government. erning body of the American branch of the money were forwarded to the organization in Ireland for League purposes, for charity, for the Parnell testimonial and for other rands, for which Mr. Parnell and his associates expressed their warmest gratitude. At the request of the Parnellites, but against the wishes of many Land Leaguers, the Land League was destroyed, and the National League erected on its ruins in the convention in Philadelphia in 1886. Since that time over \$2,000,000 has been forwarded to Ireland by the officers of the National League.

"In deference to the wishes of Mr. Parnell the Executive Council of the league refused to call a convention for the past year or two. to call a convention for the past year or two, which anneyed mamilie John Devey, Patrick Gleason and others throughout the country who loudly protested against the refusal of the Executive Council to call a convention. Dr. O'Reilly, the Treasurer, had his accounts andited by a committee and every cent was accounted for. John Dillon, Met Harris and Rev. Eugene Sheehy and lead the accounts in Ireland and reported them as cerrect, but John Dillon has not the moral courage to do justice to men in this country, who have been mailgned and villined, though he has been requested to do it. Wm. O'Brien is his interviews and speeches is reported to have gleried in the fact that the coercive measures of the Government are thusble to destroy the organization in Ireland, which is meant to preserve as all hazards. The and his ascontage regard the organization as sevaluable, why do

stroying it here. With a degree of ingratitude and discourteay that is astonizhing,
they will wholly ignore the effect of an organization that has done so much for them. These
officers have worked hard from the earliest
moment of the National League in America,
but they are not censulted, though they have
suffered undeserved, abuse through the
wishes of Mr. Parnell and his associates.

"There is, therefore, no further use for the
continuance of the National League in this
country, as it has, thanks to the members of
Parliament, no alliance with the League in
Ireland. Thus the visiting members of
Parliament have, by a preconcerted arrangement, strangled the League here. They even
go further and dictate to them here that the
work is to be done by local committees.
These men profess to demand a home parliament for Ireland, but deny the Irish-Americans the right to organize for the government
of their own affairs. It can be readily recognized that while they are willing enough to be
supplied with money, they do not desire to
have is existence here any organized body to
which they would be responsible. It is far
mere agreeable to them to make a tour
through the country and get what they can
from individuals, like their trips
to Australia, where iast year
Dillon and Esmonde collected \$200,000. As to
the threatened famine in Ireland, it has been
positively asserted prior to the departure of
Mesars. O'Brien and Dillon that a famine, or
at least great distress, would occur in Ireland
this winter, and, indeed, it was thought that
the mission of these gentlemen was to obtain

Parnell Remains at the Helm

LONDON, Nov. 21.—Parnell will remain at the head of Irish affairs. That is his own decision. He has written to some of his friends in London, saying that so long as he is supported by his Irish colleagues he will remain at the helm; finat he has never sought office nor reward at the hands of the English, and he asks for no assistance now. The Irish people, he says, must decide the question now, and when the battie of home rule is won after its long struggle against overwhelming odds, then the Irish people could choose whoever they choose to conduct their affairs.

Mr. John Morley, speaking at Sheffield, said that the Liberals had a duty to perform towards Ireland which stood on its own merits. This was no time to consider the case of hir. Parnell. Rt. Hon. A. Justin McCarthy moved a vote of confidence in Parnell, saying that he knew the serious nature of the question, but he was sure it would not cost them a single friend who had supported them from the beginning. Timothy Healy seconded the motion and it was supported by the Mayor of Cork, Sir Thomas Esmond, Raymend Leary and others and carried with great enthusiasm.

ARBESTED IN LONDON

Record, Taken Into Custody. Information was received yesterday at Police Headquarters to the effect that the notorious George Woodward was under arrest at London, England, with excellent chances of serving a long term at Dartmoor. Woodward has a St. Louis record in connection with his crooked work ail over the country. He is a shoplifter, confidence worker, diamond swallower and general ail-around crook of the first class. For some time he was a leading spirit in oid Mother Mandelburn's gang in New York City. Eleven years ago he confidenced a jeweiry drummer at the Palmer House, Chicago, and got away with \$15,000 worth of valuables. The "swag" was recovered by Pinkerton. On Sept. 30, 1887, he was arrested in St. Louis for shoplifting. Detectives Desmond and Fagan saw two men enter Budweiser's saloon on Sixth street carrying three packages of silk. The officers followed and arrested the strangers before they could conceal the stuff. At the Four Courts the prisoners gave their names as Geo. Watson, alias Woodward, alias Williams, alias Barry and Joseph Newman alias Harry Phillips. Both were thoroughly equipped for silk holsting, westing large Prince Albert coats, with deep shir pockets extending entirely around the body. Two boits of the alik were identified by representatives of Rice, Six & Co., and the other by Hargadine, McKittrick & Co. The prisoners had been to those places half an hour before their arrest and represented themselves as merchants from a Kansas town. They were shown through the various departments, and in the silk department munaged to operate with success. The men were indicted for grand larceny, pleaded guilty in the Oriminal Court, and were each sentenced to serve two years in the Fentientiary at Jefferson City.

At the completion of their terms the two separated, Woodward registered as Robert Alfred Wright, but was recognized by a Scotland Yard detective who had seen him in this country. lice Headquarters to the effect that the no-

Dempsey was filed for record in the Surrogate's office in this city on Wednesday last. It is dated as Fort Lee, N. J., July 12, 1888, but it has been only recently admitted to probate. The history of the circumstances that led to the probating of the will is almost without precedent in this country. The chances are that it would never have seen the light of day but for the remarkable will left by Mrs. Jane L. Melville, who died in the Florence apartment house at Eighteenth street and Fourth avenue in this city on March 30 of this year. Nine days after her death her will was filed for probate. She left an estate that amounts to about \$110,000. Mrs. Melville left two bequests of \$5,000 each, \$10,000 to Dr. Geo. B. Foster, who attended her in her last lilness, and the remainder, nearly \$100,000, to Geo. W. Dillaway, a lawyer of No. IS Wall street, who had been her counsel since the death of her husband, some eighteen years ago. Mrs. Melville's only surviving relatives were the children of her brother, Guy C. Dempsey. Jehn A. Dempsey and Miss Lavinia H. Dempsey. They were not even mentioned in the will. That Irritated the Dempsey brothers great deal. Neither they not their sister had heard that their sunt was dead, or even ill. until they received formal citations to attend the probate of her will. Then they were surprised to find that Lawyer Dillaway was one of the executors as well as residuary legates. Mr. Dillaway's partner, Theodore E. Leeds, is the other executor. Their clerk, Adolph Bierck, Jr., is one of the witnesses of the will. The hearing of the probating of the will was adjourned from time to time, and finally Joseph H. Uhoate, appeared for Mr. Dillaway on Oct. I3 and the surrogate appointed Dec. I, 3 and 4 for the hearing. The lempsey brothers had often heard their mother say that their father, John A. Washington, D. C., Nov. 21.—Surgeon-General Hamilton has made a report to the Secretary of the Treasury giving the results of vis-its paid by him to the principal foreign ports of embarkation of emigrants bound for the United States. He says he visited the ports of Naples, London, Liverpool, Glasgow, Bremen, Trieste and Hamburg, and found that there is at present no systematical medical character is at present no systematical modical examination of emigrants at any port of embarkation. Some of the steamship lines, he says, require their surgeons to make a preliminary examination which, however, in no case compares with the examinations made at New York by the officers of the Marine Hospital service, as the nurposes are entirely differently differ service, as the purposes are entirely differ-ent, the purpose of the steamship's company being to pass all that can be passed, while ases that are likely to become a public disease. It may be positively, asserted without fear of successful contradiction, that the emigrants bound to the United States are not

the welfare or the country termines more restrictive measures than the present laws seem to be able to furnish. The advocacy of restrictions upon immigration does not necessarily imply hostility to foreigners, nor legislation adverse to the interests of these naturalized citizens now in this country. On the contrary, it is believed to be for the general interests of those now on the soil, who, having been invested with the rights of citizenship, are entitled to all the protection that our laws can give; and it is in their interest, not less than in that of the natural born citizen, that further influx of persons not bringing skilled labor or material wealth to the country, should be restricted. It ought to be a privilege to be an American citizen, and as naturalization is a gratuitous concession to the immigrant, the immigrant should be of such a character morally, intellectually and physically as would make him a more or less valuable addition to the bedy politic, and it would appear the less the immigrant could do in return for this concession would be to render cheerful obedience and conformity to the laws

OF HIS ADOPTED COUNTRY.

But in many instances this has not been the experience. We winces in New Orleans and Chicago, for instance, the fact that certain foreign nationalities insist on maintaining their nurderous assassination societies and putting them in practice on our own soil, in contravention of our laws and of the public peace and this leads irresistibly to the conclusion that the classe of former times. In looking through the vast literature of this subject as contained in various public documents. It is found that there is a general rule regarding the fluctuation of immigrants have changed from the classe of former times. In looking through the vast literature of this subject as contained to various public documents, it is found that there is a general rule regarding the fluctuations and depressions the material prosperity of the country. It is a fact that most foreign countries do not encourag them. Klotz & Co. therefore concluded to conduct the business in their own way without consulting the trust. Yesterday the American Biscult Co. went into court and obtained an Injunction restraining Klotz from interfering with their business and appointing another agent to take charge the of establishment. Thereupon Klotz & Co. filed application in court sverging that they were induced under faise pretenses and fraudulent representations to sign documents making their firm a member of the American Biscult & Manufacturing Co. They ask that all such documents be declared null and void. They give the free transfer of the present time that no governments be declared null and void. ments to encourage the migration to their own colonies of such intending emigrants as are casirable additions to the population, and it is believed at the present time that no government in Europe encourages emigration to the United States. I was unable to flud any iEVIDENCE OF ASSISTED EMIGRATION except to Canada, where, under cortain eigenmasances, the emigrants are assisted. And as the influx into the United States from Canada is less closely watched than that from Europe direct, it is possible that many of those assisted emigrants may find their way into the United States through Canadian channels. It is suggested that the law be amended so as to provide that hereafter any person intending to emigrate ito the United States shall produce to the United States shall produce to the United States and Introduce to the Consul a certificate from the proper local authorities satisfactory to the Consul a certificate from a legally qualified resident physician to the effect that such emigrant is at the time suffering from no constagious nor epidemis disease or disability, such as would make him a public charge; that on the production of these certificates to the Consul as the shall issue to the intending immigrant his certificate to the effect that the feregoing evidence has been furnished by him and placed on file at the consulate. This paper should also set forth whether the immigrant intends to become a naturalized citizen of the United States or merely a temporary inhabitant, the certificate to be given to the immigrant and on his arrival in this country taken up by the proper naturalized citizen of the United States or merely a temporary inhabitant, the certificate to be given to the immigrant and on his arrival in this country taken up by the proper officer at the port of destination—this to be taken as presumptive evidence that the man possessa the preliminary qualifications for American citizenship and has such to furnish the Court of Naturalization on demand.

"This course would at once place the immigrant under the surveillance of the proper officer of the United States, would effectually shut out the criminal classes and would operate very much for the reject of the inspection bureaus at our ports of entry. the game and the club to have some local capitalists at the head of stands and the contracts, with all the premi-nent players of last season's team, belong to a syndicate of Brotherhood backers, They gave \$40,000 to get possession of these col-laterals. No one, no matter how enthusiastic, can bring himself to believe that they are worth any thing like such a figure.

They are worth something, however, and he compromise between the League and Brotherhood, which is now being brought about, will insure its owners realizing some thing from the club. McAlpin, Taleott dwin and Addison, all Brotherh backers, who are now in the League, own League will likely take care of them. Brush findianapolis has a League franchise, It may be that he will attempt to make a comse, putting in a franchise against the ease and the contract with the Cincinnati players. He may demand a compromise on a

players. He may demand a compromise on a 50 per cent basis. This would prove an awful sacrifice to the capitalists who paid \$40,000 for the Cincinnati Club.

They would simply put a \$40,000 investment against a written permission to establish a League Club here.

The Cincinnati Club will never succeed until it is put in the hands of local enthusiasts. Foreign espital or a co-porative organization, no matter how reputable and prominent the men interested may be, will not invite enthusiasm. There is a group of capitalists here who will give something like \$20,000 for the club.

the club.

One thing is certain, the owners of the new club, no matter whom they may be, will have to furnish good base ball to make money. There will be pienty of players on the market this winter, and a good team is wanted here. No more fourth and fith-raters will stir up enthusiasm. Another thing that must be taken into consideration is the stands at the Cincinnat! Park. They are the worst in the League circuit and must give way to more modern structures to insure a paying attendance.

This is the way the Boston Herald reviews the situation: The negotiations that were consummated in the base ball world during the past week will augur no good for many players. The consolidation in certain cities will mean the release of many players, who will have to seek pastures new, and at reduced salaries.

In fact he will be a lucky player who will have a home next season.

In fact he will be a lucky player who will have a home next season.

It remains to be seen how the Brotherhood deserters will get along with those who were untrue to the cause, and whether these men will play in the same nines.

The result of the meeting in New York shows that the players will be shorn of about all of their power, and will have to de just as they are told.

More than that, it looks very much as if certain of the Brotherhood men will have to pay the penalty for being too outspoken, but the number of these will not be great. The dish of crow that the leaders of the movement will have to cat will indeed be unpalatable, but it will be deveured with as good a grace as possible.

out doubt.
Such an end was to be expected after this great mistake. The Players' League had no leader, no good adviser, there was no one at the helm to steady the ship, and he who should have been the power proved false to

should have been the power proven the his trust.

It is the general opinion that it will be a liong time before the game regains its old-time popularity. Able management, good playing, harmony in the ranks and the direction will be necessary to bring this about. The war of 1890 will be long remembered for the have it played with the minor leagues. Immense sums of money were lost. Those who will go into base ball in the Atlantic and New England regions will look very carefully before they will go ahead.

Ives to Challege Slosson.

The New York Sun referring to the arrival of Jack Schaefer and Frank Ives in the met-ropolls says:

Napoleon Ives spoke cheerly about his own plans. He has been sick, and is still suffering from majaria. Rheumatism has helped to but disabled him for professional work. He says that he improved 30 per cent upon his form in the Chickering Hall tourney, and then had so quit because of the rheumatic

then had to quit because of the rheumatic attack.

"I expect," he said, "to make an effort to get a game with Slosson. I propose to challenge him to a contest at 14-lach balk line for 1800 a side, the winner to take everything and to foot all the expenses.

"By the way," he added, "do you knew that the true reason why I didn't go into the world championship battle hasn't been stated fruthfully in New York yet? My money was up, and I didn't take it down ustil a week ago Tuesday. My proposition was that the second man should get back his estrance money. But it was not accepted. Suppose I had beaten either of the leaders, I would simply have been left for my pains. That, it seems to me, wasn't fair, and I am willing to leave it to any unprejudiced man if I am not right in claiming that it wasn't."

McCarthy Hounding Dixon.

Cal McCarthy appears to be in earnest in his desire to fight George Dixon. After the draw between them the little New Jersey man let Dixon's doft to meet him again go unnoticed, and it was generally supposed that he had no ambition for another set to with Boston's dusky wonder. McCarthy had injured his hand in the fight and said he did not want to make a match until it had healed. It would have been a foelish thing for McCarthy to sign articles for a fight while he had a broken hand. His excuss seems to have been a genuise one, for ever since he had been very anxious te fight Dixon, but the latter has shown no disposition to grant him a match. McCarthy is trying every means in his power to force the colored youth into meeting him. Wednesday night, when Dixon, who is traveling with a show now playing in New York, was announced as the champion bantam weight the little Jersey man stepped out upon the stage and dealed Dixon's right to the title and announced his willingness to fight him at any time. McCarthy has also sent the following to the Hustrated News in order to force the Boston boy to meet him:

"I don't really believe that George Dixon wants to meet me. He knows full well I'm his master, or he would have answered my proposition in some way.

"The way in which this cream-and-coffee beare and his oute manager skipped out of New York when he heard I was hot on his trail convinced me thoroughly that these beare and his oute manager skipped out of New York when he heard I was hot on his trail convinced me thoroughly that these beare and his oute manager skipped out of New York when he heard I was hot on his trail convinced me thoroughly that these clever people do not mean business.

"Yow George Dixon, I know full well you want to meet me again on even terms in his case way."

Winter Racing. Speaking of the winter tracks the New York

Sun says: "Some years ago these winter tracks in New Jersey were the subject of ridicule, but they are so no longer, both Guttenburg and Cliften now having courses and accommodations that will compare favorably with many of their more pretentious rivals that are classed among the regulars. The Hudson County Jockey Club spared no money last year to make their place one of the best, and they succeeded eminently, and now the Passaic County Agricultural Society have followed in the lead of the Hudson County folks, and have inaugurated such sweeping changes that old visitors will not recognize the place on Friday next. A spiendid betting ring has been ejected where the eld paddock stood, and a paddock almost equal in size to that at Morris Park has been built at the other end of the grand stand, Five hundred persons went to Clifton yesterday to see the place and note the improvements, and a like number were enterrained at Guttenburg.

The magnates were not true to the players. They did not act up to their pledges, and they weakened when they had gone as deep into their pockets as they cared to.

It would be interesting to know what the League might have done had the Players' League not added the three players to the Conference Committee. There would have been a better state of things all around without doubt.

POOR AGNES SHEEMAN WANDERS AWAY FROM HOME.

Borrible Result of the Orime of Human Brutes—A Girl's Mind Unsettled by Shock and Fright—A Brother's Trouble ad a Sister's Story-No Trace of the

Agnes Sheehan, the pretty young Irish girl rhose horrible assault by ruffians on Pine treet, between Eighteenth and Nineteenth, about two months ago, was the cause of a de-sided local sensation, owing to the bold and meless nature of the outrage, has become k-minded, following the awful shock of that occurrence, and has disappeared from This latest development in one of the most

revelting criminal stories that have stained the police annals of St. Louis for years was reached only last Monday night, when the poor girl, whose mind, according to the story told by her relatives, has been rapidly weakening since the day of her terrible experience with the brutes, who are responsible for her esent condition, left her home, the resi-nce of her brother, 2226 Biddle street, and thout a word of explanation or farewell to purposely disappeared. She has not commuand the greatest uneasiness is felt concerning A HORRIBLE STORY.

dest part of a sad little drama that has been going on since the date when she was attacked by the three men, the drama of a mind unsettled by one frightful experience and gradually sinking into the pitiable stage of helpless imbecility. The complete record of her misfortune, cleaing with her abandonment of home and friends, is one that will stir the deepest indignation in the bosoms of all who read it.

ment of home and triends, is one that while stir the deepest indignation in the bosoms of all who read it.

On Sept. 28 last, while she was on her way from the St. James Hotel, where she was sumployed as a domestic, to her home, about 2:50 o'clock in the afternoon, Agnes Sheehan had to pass a blacksmith and borse-sheeling shop owned by Ed Butier, situated on Pine street-between Eighteenth and Mineteenth streets. As she passed the shop, a brawny man who was lounging in front of the place, boldly threw his arms around the defenceless girl and draggediher into the deserted forge. Hers, despite her ories and ineffectual struggling, the ruffian and two other bestial companions criminally assaulted her. Released finally from her horrible captivity the poor girl reported the outrage to the police and gave a description of the three men. Thos. J. McCormick, who was arrested by the police, was positively identified by Agnes Sheehan as the one who had dragged her into the shep, and two other men, John Williams and Frank Buckley were subsequently, apprehended and placed in jail. The trial of the three mean came up in the Court of Criminal Correction on Oct. 18, but was constinued until Nov. 29, and the three are now confined at the Four Courts awaiting trial for the herrible crime.

IT UNSETTLED HER REASON. IT UNSETTLED HER REASON.

In the meantime poor Agnes Sheehan, it appears, began to show alarming indications of the effects of the shock upon her nervous and mental faculties. From a quiet and gentic girl she became subject to spells of extreme violence, when her cutburest of a strange, fierce temper were of such a nature that her brother and older sister, with whom she lived, with difficulty restrained her from acts that would have stamped her as insane. For several weeks the Seehans tried to keep Agnes' condition from the public, hoping that the paroxysme would not return, but the girl grew rapidly worse as to her mental and nervous derangement, in addition to her cutburase of plauseies ment. In addition to her outbursts oficauselessinger, she was also selzed with a mania fer seaping from and wandering on the streets, cling in a light-headed way. Finally he elations became convinced that she should seeive medical attention, and on Nov. 4 her rother applied to police headquarters to ave Agnes Sheehan placed in an asylum pital fer treatment. On Nov. 12, after notifying her brother, agnes Sheehan was discharged from the Hospital with this note on the official record: "Condition not improved." Dr. Priest still refused to believe that the girl was insane, and she was taken back home by her brother.

HAD TO BE WATCHED.

Here she again developed the same symptoms of meatal unsoundness, and her sisterhad to keep an untiring watch on the girl to prevent her escaping to the streets, as she had on previous occasions. Agnes displayed the greatest antipathy to her home and surroundings and was always begging to be al-

had on previous occasions. Agnes displayed the greatest antipathy to her home and surroundings and was always begging to be allowed to go out "to work." At last, on Monday night of this week, as stated, she eluded her sister's vigitance and left heme. For two days nothing was heard of her and then it was learned indirectly that she was working for a family on Thomas street as a domestic, but just where she was living it was impossible for them to discover. Since that meager information nothing more has been heard, and in consequence her need a season to be a saylum was not made public by the police, and no hint of the unfortunate girl's sad mental condition was allowed to gain currency. A POST-DISPATCH reporter, hearing waguely of this latest development in the case this merning, went out to see the girl's relatives in regard to the matter.

The elder sister was found at their home on the third floor of No. 2226 Biddle street, and

The elder sister was found at their home on the third floor of No. 2226 Biddle street, and when asked about Agnes' condition first gave the startling information that the girl had disappeared from home, and then continued: "Agnes has never been the same girl since that awni attack that was made on her last September. She was never a bright girl, and the shock seems to have had a most injurious effect upon her mind. Her brother finally decided that it was best to have her put in a beylum, as she was so flightly and violent we could do mothing with her. But after being kept at the Hospital for a week Dr. Prices said she was not insane, and she was sent back to us.

"Since then she has been just as bad as ever and we have had to watch her continually to keep her from running away from

orms.

"All this has developed in Agnes since the seault by the three mon and must have been saused by the fright and shock. Before that he was steady and hard-working and was always perfectly willing to remain at home. She ing to remain at home. She mever showed any of the strange symptoms that have given us so much treuble before that time. She would get violently anary, was atways threatening to leave home and had an irrisistible desire to escape and wander about on the streets at night. Agnes is just 17 years old this month. The dectors say she is not crasy, but her mind is certainly affected.

"Monday night, when I was busy about the house, Agnes got away. She did not come home that night nor the next day, nor have we seen her or beard from her since. Where she went or what she did we have no idea. I heard that she got work on Thomas street, and

that is the only thing I have heard yet."

Poultry and Came,

Live Poultry—Receipts of all kinds were large, and while the demand was not urgent it was about equal to the offerings of turkeys, geese and ducks, but for chickens the inquiry was only fair. There were few arrivals of straight coops of spring chickens, and most of the offerings were mixed lots. The market on turkeys, ducks and geese was sustained by shippers, who are free buyers of all choice offerings at full quotations, but then, long and scrubby stock was hard to place even at the inside range. Begins and the court of the seedlings continue sawings. In the north and center of France rain has fallen lately, and accounts of the seedlings continue satisfactory. In Germany, the weather has been unsettled, with rain and snow. Beigium also had a wet spell, In Northern lasty winter was unhered in with rain, changing to snow and rather severe froat. In Russia the weather has been irregular. In Odessa and the neighborhood the thermometer went eighteen degrees Fahrenheit below freezing—this sudden snap of cold was expected to cause injury to the young wheat plants. In Eastern Russia a higher temperature prevailed, and azima fields looked green and well. The agricultural outleds in Australia is said to be satisfactory and most wncouraging for the coming harvest.

Chicago Market Letters.

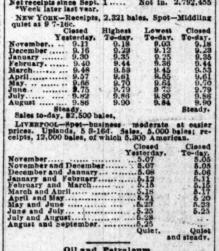

By Private Wire to J. P. Grier.

CHICAGO, Ili., Nov. 21.—Contrary to late expectations of last night there was 4 better financial air East and West this morning and 4s the day advanced and no weakness among the traders here developed good buying took hold of our market and we have a sharp advance to record.

As money matters look easier and some inquiry for both win. er and hard apring wheats in ontside markets and second cables score an advance, there seems reason for it after such a continued decline.

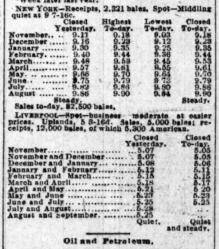

Corn advanced, but not relatively as much and we think it high, as also provisions, which with heavy stocks was likely to drag, aspecially if there is any weakness in other plis. Trade has been buoyant, at times wiid, and the crooking is firm all around.

THE WOBURN SENSATION.

No Complaint Made Against Mrs. Hag gerty for Borsewhipping Dr. Conway. Boston, Mass., Nov. 21.-There was no searing at Woburn yesterday in the case of Mrs. Haggerty, who horsewhipped City Physician Conway. In fact, Dr. Conway ha subsides, for some people think the affair has politics in it. Public sympathy is with the doctor. Mrs. Haggerty's ostensible grievance is that eleven months ago, when a babe, was buried from her house without the service of either undertaker or parson. Dr. Conway, as was his duty, inquired into the case. A mild looking individual, whom nobody knows anything about, figures mysteriously in the case. It was he who went with Mrs. Haggerty to Conway's office when she wilipped him. He is said to be a student of some sort and says that he comes from New York. Other rumors have it that his name is Waish and that he halls from Boston. He refuses to talk.

PRESSED THE WRONG BUTTON.

The Blunder of a Fireman at the Metro politan Opera-Bouse.

NEW YORK, Nov. 21 .- A fireman, looking very ment in his bright, new uniform, walked in upon the stage at the Metropolitan Operahouse shortly after 1 o'clock yesterday afternoon. His Captain had assigned him to duty at the house during the monster entertainnt which was to be given for the benefit of ment which was to be given for the beseft of the Roman Catholic Orphan Asylums of this city, and, as he had never before been assigned to such duty, he found much to interest him. He brushed past that little screen knewn to theatrical people as "the teaser" and looked through the peep-hole out into the vast auditorium. What he saw was thousands of expectant faces awating the going up of the curtain. He then went to the big board that contains the machinery which regulates the lights throughout the building. On the board were two buttons, one of which it was his duty to press in order to show that he was at his post of duty. The other button when pressed notified the department that the big opera-house was ablaze. Something attracted the fireman's attention—may be it was a pretty face—and he pressed the wrong button. In an instant the machinery of the Fire Department was in motion. An engine with smoke issuing from it in great quantities; a big, cumbersome fire truck and a chief of buttailon's wagon, all with loud clanging bells, were hurrying with all possible speed to the monater building: The audience was still expectant and clamoring for the curtain too late, the fireman discovered his error, and the thought of what might occur if that immense body of men, wemen and children were to hear those fire bells filled his heart with terror. He rushed out just in time-fo meet the steamers within a lew feet, of the building. The mistake was expisited, and the dremm, as notsylvishy as they could, wended their way homeward. While they were doing so the 3,500 people in the house were laughing, for they did not know what they had escaped. the Roman Catholic Orphan Asylums of this

WESTMINSTER PRESBYTERIAN CHURCH CALLS A PASTOR.

Bev. W. B. Herendeen the Man-All Praye Service-Musical Programmes for Sunday at the Big Churches-Archbishor Kenrick's New Residence - Religious

The officers and members of Westminster Presbyterian Church are now waiting to hear from Rev. Mr. W. R. Herendeen, who has been called to permanently fill the pulpit made vacant by the death of Rev. W. G. McDonnald, who was at the head of the congregation for some time. At the last meeting of the members it was decided by a vote very complimentary to Mr. Herendeen to tender nim the vacant rectorship. They had heard him on two occasions and took kindly to his preaching and zeal' in church work. Sunday last and the Sunday previous he conducted the services and made a good impression on his hearers. The result was the action of the members. The result of the meeting was today sent to Mr. Herendeen and his answer will be awaited with interest. Though not over 30 years of age, he has made a splendid record as a preacher and church worker. His home is at Mount Sterling, O. He received his collegiate eduon the kidneys, liver and bowels, effectually cation at Wooster, O., and studied theology enerally believed that he will accept th

call.
Westminster Church is located at Jefferson avenue and Pestalozzi agreet, and is reported in a flourishing condition.
Rev. Alexander Walker, the new synodical missionary, is in the city giving attention to the business affairs of his office.

The Executive Committee of the Archiepis-copal Residence Association held a meeting late yesterday afternoon in Mr. Charles P. Chouleau's office, No, 207 R. Third street.

The 'meeting was well attended, steps were taken to push the work of raising the balance of the amount needed. The grounds have already been purchased, and it is estimated that the residence alone will cost \$50,000. It was decided at the meeting yesterday to issue circulars soliciting subscriptions and fully setting forth the aims and objects of the association.

Rev. Dr. Wharton's Meeting. Rev. H. M. Wharton, D.D., of Baltimore is preaching to large congregations at the Delmar Avenue Baptist Church. He is one of the leading Baptist divines in the country filling the pulpit of one of the largest churches in Baitimore. He is the editor of the Baltimore. He is the editor of the Baltimore Baptist which he established himself, President of the Baptist Orphanage and also at the head of the Luray Female Institute of Virginia. Dr. Whraton spends much of his time in evangelistic work for his ewn and other denominations. Not long since he held revival meetings in Norfelk, Va., in a large tabernacle, seating 8,000 persons. These meetings were of a most successful character. Dr. Wharton is accompanied by Rev. A. A. Williamson, who directs the music, and otherwise assists in the Evangalistic work. The reception of Bishop Keane, President of the Washington University, by the Marquette Club of this city was a grand affair. The Bishop expressed himself as much pleased with his reception and spoke most eloquentity of the future of the university and catholicism in this country. Bishop Keane goes to Denver from this city.

Rev. John D. Vincil, D. D., has taken charge of Centenary Chapel on Taylor avenue and will officiate as pastor, preaching every sunday morning and evening. He is out of the city at present on his annual vacation. During his absence the pulpit will be supplied by Ben Deering, Rev. J. W. Watts and others. Mr. Watts will preach next Sunday morning and Ben Deering at night.

The retreat at St. Malachy's Church, which began last Sunday, is largely attended, particularly by the young people of the parish, for whom it is given. Rev. Father Michael, who is conducting the exercises, is a strong speaker and always holds the closest attention of his hearts. The retreat, it is expected, will have the effect of largely increasing the membership of the young people's sodalities in the parish.

ANNISTON, Ala., Nov. 21 .- About Oct. 1 Miss Effic Hastings, a beautiful young woman from Baltimore, Md., and who comes from s prominent family of that city, accepted a position as saleswoman with H. C. Marks & Co., in this city. Three or four weeks ago Sol Edel, the business manager of the firm, caught her sitting down during business caught her slitting down during business hours, which was a violation of his orders. For this he reprimanded her severely, and the next day he discharged her without assigning any cause. The girl then went to Birmingham and secured a position, but she had been there only a few days when she was notified that Edel had sworn out a warrant for her, is which he charged that she had stolen a sacque from the store. The trial was held yesterday, and Miss Hastings proved that she

paid for the sacque, and that he had seen her wearing it before she left there. The Judge acquitted her, and she will enter suit for 10,-000 damages for defamation of character. The feeling here against Edel is very strong.
